Cybersecurity Analyst Vulnerability Management - Secret

Xcelerate Solutions is seeking a Cybersecurity Analyst – Vulnerability Management to support Cyber Primes cybersecurity, privacy, records and information management, and related enterprise support for DHRA, including DMDC and OUSD(P&R). Come join our award-winning organization and work with some of the most talented and brightest minds in the GovCon industry.

Clearance:

Active Secret

Location:

Seaside, CA

Responsibilities:

- Support the DHRA Vulnerability Management Program and assess compliance with enterprise vulnerability-management directives and DoD requirements.
- Analyze vulnerability and security-assessment data, identify trends and systemic weaknesses, and prioritize findings based on risk and mission impact.
- Coordinate with system owners and stakeholders on remediation, exception, and risk-reduction actions and track progress to closure.
- Support vulnerability-related reporting and visualizations for Government and senior-leadership awareness.
- Support penetration-testing and threat-hunting coordination when required by the cross-referenced PWS scope.
- Perform vulnerability, web-application, and code scanning; develop remediation plans; and track, prioritize, and monitor vulnerabilities and POA&Ms to closure.

Minimum Requirements:

- Bachelor's degree and three years of experience.
- Must be U.S. Citizen
- A Secret clearance is required when the assigned duties require classified information or SIPRNet access

Compensation Range:

- The anticipated salary range the Employer reasonably expects to pay for this position is $103,000 to $140,000 annually.
